An Explosion. LOSS OF LIFE!!

The following telegraphic dispatch we clip from the Pinsburgh Gazette:

New York, March 27. The premature explosion at Hurl Gate kitled but two men, and wounded two others. Mr. Maillifort and the fireman escaped.

From a further investigation of the affair, it appears that Mr. Maillifort in undertaking the plasting, employed two boats, one for the galvanic battery, and the other to contain the rollton, all of which lands are situate in Carroll powder. M. Maillifort guarded the former and county, Ohio. The three several tracts of land his assistants the latter. Immediately before lays in a body and was valued at \$5700,00 subject she explosion, a cannister containing 120 lbs powder, had already been sunk in the water by his assistants, and was fixed on the rock, while another cannister was still in the boat.

M. Maillifort who is generally about 40 feet and secured by mortgage on the premises.

GEORGE PUGH, from the boat containing his assistants, ap proached with his boat, for the purpose of se curing the wire which was attached to the cannister of powder in the water. By some mis take, the wire of the cannister in the boat was handed to Maillifort, who, having removed to the with the battery. The consequence was that the powder in the boat was exploded, shattering it so atoms; the assistants in it were blown in various directions, and two of them were instantly killed. Theodore Southard was horribly mutilated, and it is thought that he will not recover.

The boat in which M. Maillifort was stationed, was considerably shattered. He received several injuries, and his brother-in-law was also on Canal street. The time of opening the examalightly injured. The explosion was terrible, seing heard for miles around.

EDUCATION IN IOWA .- In Iowa there are five hundred and eighty-one public schools, saught by about the same number of machers, of whom searly half are females. In each township of the State one square mile of land has been set apart to remain forever devoted to the support to call and examine their styles and prices whenof public echeols. The number of acres thus reserved in the whole State is about one million, which, with other lands devoted to the same purpose, are now worth two and a half millions of dollars, increasing in value as the rate of at least 10 per cent. every year.
